## **DETAILED ACTION**

## Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Claims 1-10 are allowed because the prior art fail to teach or fairly suggest a solid state laser as recited in claim 1.

Tsunekane et al. ('248) discloses in Figure 15-17 a side pumped solid state laser device having at least a pumping source 6 and a solid state laser gain medium 1 wherein the laser medium facing said pumping light source is a light incident surface for making the pumping light parallel in said laser medium except for the surface of said solid state laser medium facing said reflection portion is flat for returning the reflection light from the reflection portion back to the laser medium in a parallel manner.

Okazaki et al. ('393) discloses in Figures 1-15 a solid state laser having a pumping source 11 and a laser gain medium 13 having a flat portion 13b for returning reflection portion of pumped light back to the laser gain medium. However, Okazaki fails to disclose the pumping source pumps on the side surface of the laser medium. Okazaki instead discloses the laser source pumping at the end surface of the laser gain medium.

There is no suggestion from both Tsunekane and Okazaki to combine the claimed features together.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Citation of Pertinent References

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The patent to Tsunekane et al. discloses Diode-Laser Side-Pumped Solid State Laser Device, U.S. Patent No. 6532248

The patent to Okazaki et al. discloses Laser-Diode-Pumped Solid-State Laser, U.S. Patent No. 5341393
